

TAS Vaccination Policy and Protocols

TAS Vaccination Policy as voted on by the TAS Board

Effective January 27, 2022

1. Updated Vaccination Policy

- All members must be fully vaccinated against Covid-19, if eligible, according to the Ontario Public Health guidelines including a follow up booster as required. To enter the synagogue proof of vaccination is required.
- Proof of vaccination will be documented so that when registration sheets are printed, they will indicate if someone has provided proof already and will then not need to be asked again. Unvaccinated children will be allowed to attend in person services, but are asked to remain in their family bubble and distanced from other congregants.
- **If someone insists on attending and has a medical exemption, proof of exemption is required and they must wear a mask or shield if unable to wear a mask.**
- **All individuals entering Temple Anshe Sholom must wear a mask.**
